- Comfortable in print and digital
- Strong knowledge of web design and current web standards
- Understanding of JavaScript and Css stylesheets concepts
- Focused on quality and quick execution
- Ability to think differently to provide fresh perspectives during brainstorming and execution
- Ability to keep a cool head when the pressure is on
- Ability to work autonomously and bring new initiatives to the table
- Ability to discuss ideas and accept constructive criticism
- Ability to work within a fast-moving environment, where technology, creativity and flexibility are keywords
- After Effects is a +

### WHAT YOU BRING TO THE TABLE:

- 0-3 years' experience
- Graduate in graphic design or similar
- You think, breathe and dream design and usability
- You're creative and spontaneous
- Discipline, tenacity, independence, order and method aren't exactly your main qualities. But you're willing to give it a try anyways
- Great eye for detail
- Excellent people skills (read: it's great to have you in the YA team)
- Passionate about new techs
- Born with social media
- Branding is your religion
- You're a strong team player
- Fluent in French or Dutch. Proficiency in English

### WHAT WE BRING TO THE TABLE:

- A never-ending flow of things that must be designed
- A never-ending flow of problems that must be solved
- A never-ending flow of unrealistic deadlines
- A great environment
- Plenty of nice colleagues (and a few unpleasant ones)
- The freedom to smack the unpleasant ones
- A wonderful, flexible and flat management
- The best clients ever
- A full-time contract
